-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election of Group I without traverse, filed 12/22/03, is acknowledged.
2. Applicant's cancellation of all previous claims and introduction of 67 new claims has necessitated an additional species election requirement.
3. This application contains inventions drawn to patentably distinct species. Applicant is required under 35 U.S.C. § 121 to elect:
 - A) a **specific** embodiment of orally administering an immunoglobulin composition to an animal, such as the one of those set forth in Claims 45, 60, 80 or 98,
 - B) a **specific** animal, such as one of those listed in Claim 48,
 - C) a **specific** source of immunoglobulin, such as one of those listed in Claims 53-58
 - D) and list all Claims readable thereon including those subsequently added. Currently all claims are generic.
4. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

The different embodiments of the claimed method, comprise different search considerations. For example, a method comprising lowering the immune response comprises different considerations than does a method comprising increasing feed efficiency. While there may exist some overlap in the topics, they are not coextensive. The different animals and sources of immunoglobulin also comprise different considerations, e.g., a turkey comprises different considerations than does a goat. Therefore, the species are independent and patentable over one another.
5. Applicant is advised that the response to this requirement to be complete must include an election of the species to be examined even though the requirement be traversed.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (571) 272-0843. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841.
